DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 6-20, drawn to composition comprising compounds of the claimed formula wherein the polycycle moiety is a steroid moiety, classified in class 514, subclass 169+.
 - II. Claims 6-20, drawn to composition comprising compounds of the claimed formula wherein the polycycle moiety is a non-steroid moiety, classified in class 514, subclass 183+ (based on structures of figures 14 and 17-23).

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are drawn to compositions comprising structurally different compounds (i.e., steroidal and non-steroidal compounds).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Art Unit: 1616

5. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, from under the elected Group for **search purposes**, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
